We all love to watch movies and series for free. The best thing about these free movie streaming sites is that you don't have to sign up, so you won't have any problems. The number of views per day is not limited. There are a lot of ads on this site, but you have to tolerate them first. Netflix, Amazon Prime, and Hulu are premium services, and if you don't want to pay monthly to watch your favorite movies, here are the 31 best free movie streaming sites you can visit in 2019 without signing up. 31 Best Free Movie Streaming Sites to Watch Free Movies With Wi-Fi or Internet access much easier than a few years ago, people can now get free text messages online. So what are the best free movie streaming sites you should bookmark in your browser? And are they good? Let's take a look at it below. 1. Watch Series With Watch Series, you can watch everything from Riverdale to The Order to classic TV shows like Grey's Anatomy. This is a completely exclusive TV series streaming service. Watch Series has a very specific way of remembering recently recorded episodes so you never miss your favorite show. The website also mentions the show being shown on TV regularly in case you want to watch it on TV. 2. Vudu One of the best free online movie streaming sites. Vudu gives you early access to new blockbusters. This site has a huge collection of movies and series. Just name the movie you want to watch and Vudu will have it in its collection. Voodoo is a paid service, but they have a free section that changes every month. To access free movies and series, you need to register on the site. Some classics that are always included in the free section include Funny Girl, The Sisterhood of the Traveling Pants, and Pride and Glory. 3. Fmovies Fmovies has a lot of ads, but a large number of popular series and movies. Episodes of the current TV series are being broadcasted 24 hours on site. All prints are at least 720p, so you can enjoy movies and TV shows. Fmovies has neatly organized its collection by genre, so it's easy to choose a new series or movie. 4. GoStream From Oscar movies to action movies, GoStream gives you two options: download the print version or watch online. While you're busy working, you can download a few movies for later and watch them ad-free. One of the best things about this free online movie streaming site is that it has the least amount of ads on the list. There is also a huge collection of animated movies. 5. PutLocker One of the best free movie streaming sites. PutLocker categorizes its content by genre, country of origin, alphabetical order, and IMDb rating, making it easy for users to navigate the site. If you're a sci-fi lover, you'll love PutLocker's huge collection of sci-fi movies. There are many pop-up ads so you have to be patient throughout the process. 6. Tubi TV If you are concerned about the legality of watching movies for free, visit Tubi TV as all available titles are sourced legally through partnerships with over 200 production companies worldwide. It is the best free movie streaming site because you can stream movies and series on all devices including Android phones, iPhone, Apple TV, Xbox, PlayStation, Amazon Fire TV and the Internet. You have to register on the free site and then use your credentials on the various devices you use to sync all your movies and TV shows. 7. Yidio Yidio not only has a collection of series and movies that were released in theaters, but also those that debuted on Netflix, Showtime Prime, Hulu, Amazon Prime and other online streaming services. After registering on the site, you can create a watchlist, which is an amazing feature because it stores all your favorites and watch series and movies in one place. Yidio is not free and lets you rent movies for \$2.99 and TV shows for \$1.99. After registration, you will get access to a small but rich collection of free movies and series. 8. Afdah Afdah is a free online movie streaming service where you can watch movies in HD quality. They have several servers to choose from and a detailed description of the video you are watching. 9. AZMovies Another top choice among movie lovers, AZMovies has the best collection of award-winning movies from around the world. Movies are uploaded to the site within a month of their online or theatrical release. This free movie streaming site has a special Favorites section where you can watch the most popular movies of 2019. If you like movies, you should visit this site. 10. Popcornflix From new releases to classics like Friends, Popcornflix is every drinker's dream come true. If you want to watch the best movies of all time, go to the recruitment section of the site. It is compatible with all iOS and Android devices, Roku, Apple TV, Amazon and Xbox. Popcornflix has an amazing collection of must-see documentaries. 11. SnagFilms SnagFilms is one of the largest free online cinemas. One of the features of this site that interests us is that instead of collecting movies by general genres, they added a unique option to categorize movies according to the message they want to convey. For example, some categories include celebrating pride, climate and environmental change, and exploring the world. 12. 5 Movies 5 Movies is an American streaming service that allows you to watch movies without registering on the site. All videos are available in HD quality and are available in various genres including anime, sci-fi, romance, thriller, Asian dramas and more. It's a completely safe site, that's why can be viewed online in Google Chrome or Safari. The site also has a good collection of series, but it takes time to download the latest episodes, so you will have to wait two to three days. 13. 123Hulu 123Hulu is another best free movie streaming website where you can watch Movies, TV Series, Web Series, Documentaries, Short Movies and Documentaries for free. If you live in South Asian countries, the website may not work as it is blocked by national governments. But there is another way to watch movies and series. Change your computer's IP address whenever you want to watch to a country where it is not blocked. 14. PrimeWire We love PrimeWire because it puts the most viewed and popular movies and TV shows on the home page, so you can spend less time searching for what you want to watch. All content is in excellent quality, so don't worry about bad printing. 15. Yes Movies Yes Movies is popular on many free online movie streaming sites because it has very few ads. If a movie or series is missing, you can request it and it will appear on the site in a few days. If you enjoy watching documentaries, you should visit Yes Movies. Recommendation for you: Best Free Data Recovery Software to Recover Deleted Files from Android Phone for Free. Crackle is a great choice for users interested in streaming their favorite movie online for free. This site is one of the most popular sites for free movie streaming. This website offers a wide selection of various popular movies that are the best of all time. Any user can easily watch the available number of movies on this site without any payment. Premium TV shows and original web series from major production channels are available on Crackle. Users can stream online and download their favorite movies. HD video quality is also supported by this free movie streaming website, making it a great choice for everyone. In addition, users can also apply various filters from the video collection on this site. Or they can sort by movie genre or alphabetically. Register today on this page by creating a free account and start streaming online for free. All you need to create a free Crackle account is an email ID. 17. Viewster Website Viewster Website is a popular free online anime series streaming website. It has a large number of popular Japanese and Korean anime series in its database, which is very attractive to users. Apart from that, this free movie streaming site also has a large number of documentaries and other related TV shows. Viewster's interface is also very attractive and user-friendly. All streaming media content on this site is legal and there is no problem with piracy. However, in order to stream the content available on this website, you need to register on this website. The registration process is free and all you need is an email ID to get started. Full length popular anime series with all episodes can be streamed for free exclusively on this website. The only downside of this site is that no one can download any movies or anime series from it. But if you're worried about online streaming, Viewster is probably your best choice for streaming popular Japanese and Chinese anime series. 18. Pluto TV This amazing free online streaming site is another very impressive choice for all users that has a built-in "live TV" feature. A huge collection of popular Hollywood classic movies is also available on the Pluto TV website, which is one of the highlights. Popular TV channels like Fox Sports, Classic Movies and Horror 24/7 can be streamed live on this site. The interface of this site is also elegant and clear. After successfully registering on this site, you can create your personal playlist for freemove to add all your favorite videos. This site also supports various languages besides English, which is a great feature for everyone. Users have access to a built-in video-on-demand library for instant video viewing. 19. Classic Cinema Online Classic Cinema Online is an excellent choice for all users. This site has thousands of old classic Hollywood movies in its database, which were very popular with users, especially from the United States and neighboring countries. On the home page of this free streaming site, you will see the icons of the most watched movies that you can only stream for free. You can also search for your favorite movie on this page using the search box at the top of the homepage. All super-hit classic movies are available on this site, and movies that are not available on this site are quickly added to this site's database. The site also allows downloads, which makes it an ideal streaming site for users. Each user can stream their favorite movie in the video quality they want. The video quality can be selected instantly when streaming online on this page. The main downside of this site is that the interface of this site seems a bit outdated as this site is older compared to other online streaming sites. But if you want to stream old-school classic movies to your device, there's no better choice than Classic Cinema Online. 20. Veoh Veoh is one of the most popular options among users for free online streaming of movies and favorite TV shows. The Veoh website is an uninterrupted and great place to stream the best of the latest and old Bollywood movies for free. The graphical user interface of this site is the best and most interesting feature of this site that impresses all users. You can easily sort videos by genre, language, release year, length, and many other filters. If you want to find your favorite video by keyword, use the search box to get the job done. Veoh recently added some new channels to its website where users can stream live TV for free. Users can create a free account on this website or log into their Facebook account to watch the movie collection. This site also has a separate series section where users can stream or download their favorite series for free only. 21. Stremio The huge collection of popular Hollywood movies and popular TV channels is probably the main reason for the popularity of this site. Millions of users stream their favorite movies and series daily on this site. This site has many different categories that divide the available media content. This site has a separate section for movies, series and live TV. Stremio is an all-in-one streaming platform with an attractive graphical user interface. Several other elements, such as the lack of ad-streaming, streaming options, and video-on-demand services, are also responsible for this site's massive growth rate. Currently, at the time of writing, this site has over 2 million subscribers who stream all their personal content on this site daily. There are no pop-up ads on this page. You can also continue streaming a particular video on this page from where you left off. Also, new anime series will be added to this site soon as updates are received. With all this new content added to this site, Stremio is sure to become the most popular site for free online movie streaming. 22. Channel of the Year Channel of the Year is another popular choice among users that has a large number of videos new episodes added. There are so many different selection features on this site. Firstly, the multimedia content available on this website impresses the users. The most popular American TV shows and drama series can be streamed live and online for free on the Roku channel. On this site you can find Bollywood movies of almost all genres exclusively for free. All you have to do is search for your favorite movie with a keyword. Despite having to go through the registration process, users still find this site suitable for them. Many pop-ups may interfere with video streaming on this site. Create a free account and subscribe to the Roku channel today. 23. Kanopy The Kanopy website is another great choice for all users who want to stream popular Hollywood movies exclusively for free. This site has a built-in library that has thousands of movies in its database. The graphical user interface of this website is so well designed that it attracts millions of users. In addition to the movie collection, Kanopa's website also has a huge collection of TV shows and popular web series. You will need a reader card, which you will receive after creating a free account on this site. All you need is a real email address to confirm successful creation of your free account. Kanopy ranks highly among several of its competitors due to its excellence and importance in providing users with comprehensive and satisfying results. 24. Free Movies Cinema The very name of this site suggests that Free Movies Cinema is another amazing option for users. Basically, Free Movies Cinema is among the top-rated sites in its segment, with great content in its databases. There are millions of subscribers to this site who stream online on this site every day. This website has many different sections like: B. Short Films, Classics, Serials, Popcorn, All Movies etc. Free Movies Cinema is a legal site where anyone can stream the number of movies available without hesitation. Moreover, this site does not require any login or registration as anyone can browse or stream movie content on this site for free. This site will have ad-free streaming which is a great feature of this site. If you want to manually search for a movie on this site, you can use the search box at the top of the home page of this site. This amazing free movie streaming site also supports HD video quality streaming. Despite all the positives and negatives of this site, we are quite impressed with the entire movie collection and database. 25. YouTube Not only does YouTube provide a platform for streaming short videos or movie trailers, it is also a place where users can stream only Hollywood feature films and popular TV shows for free. There are many dedicated channels on YouTube that offer this service to their lovely subscribers. Browsing content on YouTube, you will find a huge collection of Hollywood movies. Additionally, users can also save them to their devices for offline streaming. You don't need to learn anything about YouTube's advanced and simplified user interface. The channels with more than 2000 subscribers have almost all top Hollywood movies like Mad Monkey, Species, All Dogs Go to Heaven, Into the Blue, Her Best Move etc. Users can also subscribe to these special YouTube channels at any time. A new movie will be uploaded on these channels. You can also easily set the streaming quality on YouTube to your desired quality. HD may or may not be available for a particular movie, but normal video quality will definitely be available. 26. Top documents Top documents an excellent choice for all users who care about the high quality and high rating of documentaries of various genres and languages. Right on the homepage of this site, you can see a list of the top 100 documentaries that you can stream exclusively for free. The biggest benefit of subscribing to Top Documents is the lack of ads on this site. You can stream almost all kinds of public domain documentaries on this site without spending a dime. Additionally, users can also subscribe to email notifications on this page. However, if you don't know which documentary to watch first, the Top 100 documentaries section is a great choice for you. From there you start streaming and you can stream on this page without any problem. 27. Retrovision Retrovision is another very popular and advanced site. This site has a huge collection of latest popular Hollywood movies and TV shows and it is really awesome. Anyone can browse the content available on this website and sort movies by various filters like movie genre, language, alphabet, etc. Genres like Adventure, Comedy, Drama, Mystery and Horror are available on this site. The collection of Hollywood movies on this site is indeed very large and also has an intuitive graphical user interface. In addition to the huge collection of movies, the Retrovision website also has a huge collection of classic TV shows like Bonanza, Burns and Allen, Gang Busters and One Step Beyond, Dick Van Dyke, etc. All you have to do is register this site with an account on Facebook or e-mail address and start streaming for free on this page. Signing up on this site will also allow you to create your own personal playlist on the site, which is definitely an impressive feature. 28. Big Five Fame if you want to stream classic Hollywood blockbusters on your device, Big Five Glories should be your top choice. This site has a huge collection of all popular classic movies released from 1900 to 1980 and 1990. This site covers almost all genres of classic old movies. However, the quality of streaming on this website can cause problems for users as the videos on this website are not available in HD quality. This site has pretty decent video streaming quality so you can choose how you want to get the job done. This website has so many movies of different genres like sci-fi, romance, war, horror, comedy, western, thriller, family and color movies. All you have to do is simply register for a free account on this site and log in to the site with your credentials. The developer interface of this site is also very great. 29. Internet Archive Film Archive All films that fall under the public domain category can be easily streamed on this site. The huge collection of these amazing videos makes this site so popular with millions of subscribers streaming their favorite movies and TV shows. Both old classics and the latest popular Hollywood movies can be easily streamed on this site, making it a great choice for everyone. Public domain movies are free and legal to stream on this site. However, the graphical user interface of this website seems a bit outdated compared to other websites. There are pop-up ads all over this website that detract from the overall viewing experience on this website. But the best thing about this site is that users can easily download all their favorite movies to their devices for later streaming without even registering. Users can also subscribe to the Twitter and Facebook pages of this website to keep up to date every new movie. 30. Movies Found Online.com This website is another very suitable choice for users who want to stream popular and latest movies from the Bollywood and Hollywood sections. This site allows you to sort the movies available on this site by release year, genre, etc. The top rated IMDB movies are available on this site in a separate section. The organization of the videos available on this site is really very noticeable. The GUI of this site is also very attractive and optimized for the users. In addition to the collection of videos available, other features such as downloads, no pop-up ads, and no registration process are very useful features that attract a large number of users. The creators of this site upload new videos frequently, which makes it an ideal choice for users. You can also preview any movie by launching the trailer of a specific movie before starting streaming. Most of the videos available on this site can be streamed in HD, which is one of the great features. 31. Public Domain Torrents Streaming all public domain movies on this site is legal and free for users. Here on this website you can watch all the old classic Hollywood movies and TV shows easily and for free. Most users stream all their favorite movies on this site. In addition, there are a lot of pop-up ads on this website that can significantly disrupt your streaming experience. But if you click on the right areas, these pop-ups won't bother you. The creators of this site have recently added new popular US web series and new TV shows that users can watch exclusively for free. The interface of this site is also very well designed by the developers. The videos can be easily sorted on this page using the different filters available such as genres, language, release, best IMDB, etc. Tips: There are many alternatives to 4K YouTube and MP3. Gihosoft TubeGet has similar or more features compared to 4K YouTube to MP3. What are your favorite free movie streaming sites? Don't forget to mention your favorite series and movies in the comments below. below.
