This is the only way to dismantle equipment in The Witcher 3, and also it's very simple because there's a Blacksmith and Armory in every major city in the game, and every major region has at least one of each. 4 Novigrad Blacksmith The Blacksmith in Novigrad sells many different useful items, such as execution stones and craft components, that help the player on his journey. Learning the different places to dismantle and sell equipment is crucial for players who are trying to complete the game in one of the most difficult difficulties, such as the Death March. The Novigrad Armorer is located inside a shop on the west side of the market, and it is considerably easy to find in comparison with some of the other Armorers in the game, which is one of the main reasons ps that he is considered one of the best Armorers to dismantle equipment and buy new armor. The player is able to disassemble equipment by entering a city or town and approaching a blacksmith or gunsmith, depending on the type of equipment the player wants to disassemble. One of the most important techniques revolving around equipment in The Witcher 3 is the ability to disassemble the gear, which will produce extra ingredients of craftsmanship for the player and help to clean up the player's invent when they are approaching their maximum carrying weight. Lazare can be found in the heart of Hauteville, inside Beauclair, where he owns his own 's store. The Novigrad blacksmith can be used to disassemble equipment or buy weapons, and it can be found in the northern part of the fish market within Novigrad. When interacting with the disassembly tab, the player will be informed about which building components they will receive when disassembling their equipment and how much the entire process will cost.
