HUM 100 Cultures and Artifacts Worksheet

Complete this template by replacing the bracketed text with the relevant information.

Part 1

- In the first column, list three cultures you are a part of or that you identify strongly with, and rank them from most to least significant in your life. These can be national, ethnic, religious, regional, or local, and they can include subcultures or groups related to your personal interests.
- In the second column, identify one representative object for each of the cultures you identify with on your list.
- In a few words, explain how the cultural object reflects the culture in which it exists. Consider which aspects of culture have relevance for each object: politics, history, religion, social perceptions, technology, media, education, and so on.

Culture/Subculture	Object	Influence of Culture on the Object
U.S Citizen	The American flag is a great object that represents being a citizen	Pride for the country in which I voluntarily chose to defend , the Freedom in which it represents to all who come here looking to start a new life.
The Gaming culture	My console and computer are the objects I have chosen	Influence that the gaming culture has had on my object is that they are no longer used only for entertainment but now able to become a career no matter the age of the user
Health and fitness culture	My annual Army physical fitness test assesses my overall physical and health condition. I work out daily in order to be prepared for when the time comes	I must remain physically fit for myself but also to be an outstanding leader to my soldiers. They look up to their leader so if their leader is not physically fit what motivates them to remain physically fit

Part 2

To complete the second table, select three reasons for creating an artifact from the resources provided, or provide your own reasons.

- In the first column, state the reason for creating an artifact.
- In the second column, provide an example of an artifact that could have been created for the reason presented.
- In the third column, state whether the artifact was created by an individual or a group, and provide the name(s) of the creator(s).
