Not everyone is lucky enough to have access to a modern computer, and modern games usually require powerful hardware to run smoothly. PLAYERUNKNOWN'S BATTLEGROUNDS, also known as PUBG, is one of the most popular battle royale games with thousands of players, second only to the unbeatable Fortnite. Like its main competitor, it is a battle royale game in which we will have to try to be the only survivors, fighting with 99 other players, alone or joining a team. However, this game is much more graphically realistic and much more difficult. And now PUBG is adding another perk to its list of benefits: a new lite version that requires less resources than the original game to reach a wider audience, just like its mobile version did some time ago. We are talking about PUBG Lite, the exact same game with the same features but with lighter graphics. Here are the minimum and recommended requirements of the game, which you should consider very affordable: Graphics 4000 Storage space: 4 GB Recommended requirements Operating system: Windows 7, 8 or 10, 64-bit Processor: Core i5 2.8 GHz RAM: 8 GB Graphics card: NVIDIA Geforce GTX 660, AMD Radeon HD 7870 Hard disk space: 4 GB Requirements and additional information: Minimum system requirements: Windows 7. Lauriane Guilloux Hello, my name is Lauriane Guilloux. I grew up surrounded by gadgets and technology, and anyone who knows me assumes that this will always be one of my biggest interests. I've grown up hand in hand with PCs, laptops, game consoles, smartphones... Anthony Peele Jaden Brown PlayerUnknown's Battlegrounds (PUBG) is an online battle royale video game developed and published by PUBG Corporation, a wholly owned subsidiary of PUBG South Korean, video game company Bluehole. The program is based on previously created modifications. Not everyone is lucky enough to have access to a modern computer, and modern games usually require powerful hardware to run smoothly. PLAYERUNKNOWN'S BATTLEGROUNDS, also known as PUBG, is one of the most popular battle royale games with thousands of players, second only to the unbeatable Fortnite. Like its main competitor, this is a battle royale game where we have to challenge ourselves as the only survivor to fight against 99 other players alone or in a team. However, this game is much more realistic graphically and much more difficult. And now PUBG is adding another advantage to its list of advantages: a new simplified version that requires less resources than the original game in order to reach a larger audience, just as it did with the mobile version some time ago. We are talking about PUBG Lite, the exact same game with the same features but with lighter graphics. Here are the minimum and recommended requirements for the game, which as you can see are quite affordable: Minimum Requirements Operating System: Windows 7, 8 or 10 64-bit Processor: Core i3 2.4 GHz RAM: 4 GB Video Card: Intel HD Graphics 4000 Locations disk space: 4 GB Recommended requirements Operating system: Windows 7, 8 or 10 64-bit Processor: Core i5 2.8 GHz RAM: 8 GB Graphics: NVIDIA Geforce GTX 660, AMD Radeon HD 7870 Dis GBk HD 7870 Requirements and additional information: Minimum operating system requirements: Windows 7. Lauriane Guilloux Hi, my name is Lauriane Guilloux. I grew up surrounded by gadgets and technology, and anyone who knows me assumes that this will always be one of my biggest interests. I grew up with PCs, laptops, game consoles, smartphones... Anthony Peele Jaden Brown PlayerUnknown's Battlegrounds (PUBG) is an online battle royale game developed and published by PUBG Corporation, a subsidiary of South Korean company Bluehole, work with video games. The program is based on previous mods created by Brendan "PlayerUnknown" Green for additional games inspired by the 2000 Japanese film Battle Royale and expanded into a standalone commercial under Green's creative direction. In the software, up to a hundred players parachute onto the island and loot weapons and equipment to kill others without killing themselves. The available safe area of the game map shrinks over time, forcing surviving players to move into tighter terrain to provoke a collision. The last player or team left alive wins the round. This is a free adaptation of the original PUBG LITE game. The product was released for Microsoft Windows in September 2019. The program is based on the same map and has some mechanics as the original PUBG game. Overall, the product has been designed to be more accessible to a wider audience. Graphics The PUBG LITE for Windows download graphics are not as good as the standalone PUBG game. They are still good enough to provide a comfortable experience. The application map is smaller than the original map, and the number of players is also smaller. This results in a lower level of detail. The program still looks good and runs smoothly. Gameplay Players must parachute onto the island and look for weapons and equipment to kill others without killing themselves. The PUBG LITE free download is the same as the original PUBG game. The available safe area of the game map shrinks over time, directing surviving players into tighter areas to force battles. The last player or team left alive wins the round. Multiplayer The app has the same map and mechanics as the original PUBG app. The new PUBG LITE PC download includes a multiplayer mode that supports up to 64 players. However, the program has been designed to be accessible to a wider audience. Add features like low graphics settings, smaller map, counting, Replay value The program is based on the same cards and has the same mechanics as Original PUBG. The PUBG LITE game for PC is free to play and therefore has a high replay value. However, the software has been designed to provide better access to a wider audience. The software offers lower graphics settings, a smaller map, and fewer. Frequently Asked Questions What is a product? PUBG LITE is a free-to-play battle royale game for PC developed for PUBG Corporation. The product is based on the original PlayerUnknown's Battlegrounds and is designed to be played on less powerful PCs. How to play? The product can be played by downloading the software client from the program's website. After installing the program client, you can run the program and play online. What are the system requirements? You can play on a computer with at least 2 GB of RAM and a graphics card no less powerful than Intel HD Graphics 4000. What is the difference between the product and PUBG? This is a lite version of PUBG Download LITE Download game designed for weak PC. The add-on has lower graphics and fewer players in the game, but is otherwise similar to the full app. How much does the product cost? The game is free. However, in-game purchases such as cosmetics and weapon skins are available. Windows version of the famous Battle Royale. "Royal battle" for 120 players. Online activities for 100 players. One of the famous "Royal battles" for Android is available for your PC. famous battle royale game from PUBG Mobile which recently released update 0.18.0 worldwide. The game's first year of release has also ended and the 1st anniversary celebrations have begun. To celebrate this special occasion, Tencent Games has unveiled several new 1st Anniversary related mods. The developers have also posted a short teaser of this epic achievement on their Twitter page. Read also: How to play PUBG Mobile Lite on laptop inside For the first anniversary of Mobile Lite, Tencent Games launched various new themes and features. Here's a quick rundown of the features players can try out during the festivities. PUBG Mobile Lite 1st Anniversary Celebration Changes 1. New Anniversary Lobby Theme When players update PUBG Mobile Lite to the latest version, the first noticeable change is the anniversary theme itself. The theme features a Dacia skin with a season 15 winner's subscription in the background, as well as a PUBG Mobile Lite banner and disco lights. In addition, there are party speakers in the lobby that are sure to stir up emotions among players. 2. PUBG Mobile Lite First Anniversary Exclusive Clothing is especially known for its cosmetic items such as clothing sets and weapon skins. For the 1st anniversary event, the game has an anniversary clothing set that players can purchase from the shop. Players have to spin a wheel that gives them different prizes each time they try their luck. If they're lucky, they'll instantly get an exclusive anniversary outfit. 3. Cable Cars Cable Car PUBG Lite The last major change in the anniversary celebration is the cable cars in the famous Verenga map. While PUBG Mobile Lite was in beta testing, the developers added trolleys in three different locations on the map. Cable cars are now officially available in the game as part of the 1st anniversary celebrations. Players can easily follow the routes of these cable cars by zooming in on the minimap. ALSO READ: M416 vs M16A4: Which weapon is better in PUBG Mobile? Quick links for Windows version do you think battle royale Ein "Battle Royale" for all 120 players Online-Aktion for all 100 players Battle Royale for Android is for PC. Lustigste Battle Royale PUBG MOBILE LITE is a version "PUBG Mobile" specially designed for low-end Android devices. It offers almost the same gaming features as its "big brother", but takes up much less space in the terminal's memory. As you might expect, this version has less visual power and fewer simultaneous players. The gameplay in PUBG MOBILE LITE is the same as other versions of this battle royale series. Your goal is to survive in a shrinking environment and be the last player standing. It won't be easy. Fortunately, you have a large number of weapons, vehicles and other equipment at your disposal. Use them wisely and try to defeat all opponents. This simplified version of PUBG Mobile allows up to 60 players to play. While this may seem like a disadvantage at first glance, the number is actually perfect for mobile devices. This is because it allows for much faster and more hectic games that last not around thirty minutes, but just under fifteen minutes. PUBG MOBILE LITE is a great game that brings the excitement of PUBG Mobile to smaller end devices. We are talking about a game that offers exciting battles in which you can participate alone or with friends anywhere and anytime. Review: Nelson de Benito Translation: Taryn PUBG MOBILE LITE weighs between 500MB and 950MB depending on the version. The first versions were much lighter, averaging 500 MB, but from 0.23.0 their weight increased significantly. PUBG MOBILE LITE does not have as many restrictions as Free Fire. Works great on devices with 1GB RAM and Android 4.1 or higher. PUBG MOBILE LITE can play with up to 60 players simultaneously, while PUBG Mobile can have up to 100. Lite version also has brighter visuals. No, PUBG MOBILE LITE cannot be played offline. Some rounds have bots, but you can't play without an internet connection. 0.22.0 September 27, 2021 0.21.0 April 15, 2021 0.20.0 November 20, 2020 0.19.0 September 18, 2020 0.18.02., 2020 0.18.0 23.07.2020 2020
