Best windows emulator for ubuntu. Best emulator for pc windows 8.1. Best android emulator for windows 8.1. Best windows emulator for linux.

Windows' built-in command line programs aren't that great on their own. To make them better, we like to use third-party terminal programs, our favorite being the customizable and free Console. Note: For this App Directory entry, we're talking about separate terminal programs, not shells. Windows' Command Prompt, PowerShell, and Cygwin are all different shells that come with their own programs. The programs we're talking about today are separate programs that use shells already on your system, which is why you won't find PowerShell and Cygwin among the competitors. Console2Platform: Windows Price: Free Download PageFeaturesProvides a fully-functional command line interface (CLI) that can run any existing shell on Windows—like PowerShell, Cygwin, or even PuTTYOpen multiple tabs using any shell you wantText editor-like text selectionMultiple window stylesConfigurable fonts, colors and transparencyLots of customizable hotkeys for opening new tabs, switching between tabs, and scrollingWhere It ExcelsConsole is simple and easy to use while at the same time being much more configurable than any single-shelled program, while holding the ability to run any of those shells in a new tab—whether it be the UNIX-like Cygwin, Windows' very useful PowerShell, SSH king PuTTY, or the standard Windows Command Prompt. You can configure what the window looks like, open multiple tabs, and even run a number of different shells at once in the same window. It also has quite a few options for tweaking the behavior of the app, like how it selects text, which hotkeys and mouse buttons do what, and so on. If you ever do any work in a terminal on Windows, this program will make your life a little bit easier.Where It Falls ShortIf you're a very heavy or very advanced terminal user, you may want something even more powerful than Console. Console isn't the most feature-filled terminal on the block, but that's a good thing—most other terminal programs are way more powerful, cluttered, and expensive than most users need. So, if you're looking for something with built-in search or line numbers, you may want to check out the competition section below.The CompetitionThe competition for apps like this is pretty thin on Windows. If you don't like Console, you'll probably want to check out PowerCmd as your next option. It's a bit pricier at \$30, but it contains a few extra features like the ability to search your consoles, view multiple sessions in one big window, line numbering, and add bookmarks on certain lines. It's definitely not an app that most terminal users will need, and it's a bit slower than something like Console, but advanced users will probably prefer it.If you're a really advanced user that requires a powerful terminal every day, you might want to try out Take Command. It's very expensive (\$99), but also insanely powerful, adding more than 140 new commands and 460 internal functions and variables to the standard Windows command prompt (not to mention a built-in file manager and debugger). It's definitely geared more toward developers than end users, but it's worth a mention for its sheer power alone.Lastly, if the only shells you use are Cygwin or MSYS/MinGW, you might prefer Minty over Console. Cygwin's default program isn't very great, and Minty gives you a few extra options over Console, but doesn't let you run other shells (like the Command Prompt or PowerShell), so it isn't quite as useful. Minty is also free.Do you have a favorite terminal program we didn't mention? Be sure to let us know about it in the comments.Lifehacker's App Directory is a new and growing directory of recommendations for the best applications and tools in a number of given categories. Windows Central is supported by its audience. When you purchase through links on our site, we may earn an affiliate commission. Here's why you can trust us. Home to the most loyal and passionate Microsoft fans, Windows Central is the next generation destination for news, reviews, advice and buying recommendations on the Windows, PC and Xbox ecosystems, products, and accessories. We've been around for more than a decade, and we take our jobs seriously. Windows Central writers and editors value accuracy and editorial independence in everything we do, never receiving compensation for coverage and never pulling punches.Windows Central StaffZac Bowden, Senior Editor, Windows Ecosystem(Image credit: Zac Bowden / Windows Central)Zac joined the Windows Central team in 2016, and his primary objective is to bring you exclusive coverage into the world of Windows on PCs, tablets, and more. He started out writing about leaked Windows 8 builds back in 2011, which eventually led to creating a popular "build walkthrough" video series on YouTube that explored upcoming features Microsoft had yet to announce.Labor Day sales highlights - Laptops, PC monitors, and more!He's also an avid collector of rare devices, as well as unreleased or canceled prototype devices from Microsoft. He's one of few people in the world who owns a Surface table in his home, uses a Surface Mini for note-taking, and at one point had a Lumia McLaren and Microsoft Band 3 on the go as his daily phone and smartwatch. - Read: Zac's posts- Twitter: @zacbowden- Instagram: @zacbowden- Email: zac.bowden@futurenet.comMatt Brown, Senior Editor, Xbox & PC(Image credit: Matt Brown / Windows Central)Matt heads up gaming operations for Windows Central, overseeing content production, strategy, and all video game reporting. Kicking off his time at Windows Central back in 2016, he brings years in professional consumer technology and entertainment coverage. You'll find him telling the stories behind your favorite games, breaking down industry trends, and showcasing the best of what's out there for Xbox consoles and Windows PCs.Beyond the byline, Matt enjoys any opportunity within the realm of art and design. UK born and bred, and naturally a tea enthusiast, he now resides in London. - Read: Matt's posts- Twitter: @mattbrown- Email: matt.brown@futurenet.comJez Corden, Senior Editor, Xbox(Image credit: Jez Corden / Windows Central)Jez joined Windows Central in 2015 as we sought to further expand our Xbox offering. A keen Lumia and Surface user, Jez discovered the benefits of the Microsoft ecosystem via Xbox, which has gradually moved into convergence under the Windows 10 Universal Windows Platform. When Jez isn't writing about games, he's most likely playing them on Xbox. His favorite Xbox franchises include Mass Effect, The Witcher, Warcraft, Resident Evil, Battlefield, and Deus Ex, with a side order of Overwatch. Say hi to Jez on Xbox Live: Jez. - Read: Jez's posts- Twitter: @JezCorden- Email: jez.corden@futurenet.comRich Edmonds, Senior Editor, PC Build(Image credit: Rich Edmonds / Windows Central)Rich first started out at Mobile Nations in 2010 after effectively seducing Executive Editor Dan Rubino via email. Growing alongside Windows Central as the website eventually became what it is today, Rich now creates content covering all things PC — be it games, hardware, water cooling or software.Prior to joining the MoNa squad, Rich was at an SEO Agency based out of London. There he was tasked with tinkering around on office PCs and servers, visiting data centers to check on company hardware hooked up to the online world, and ensuring consultants had adequate access to data before checking in with clients.Growing up in a military household, Rich moved around the world in the early stages of his life, but now travels far and wide in games and online. After building his first PC when he was 13, he continues to evolve his skills in the hope that cyborgs eventually become reality. - Read: Rich's posts- Twitter: @richedmonds- Instagram: @Rich Edmonds- Email: rich.edmonds@futurenet.comSean Endicott, News Writer & Apps Editor(Image credit: Sean Endicott / Windows Central)Sean started contributing to Windows Central in 2017 as an app specialist. He's since joined the team full-time. Today he focuses on all things news in the world of Microsoft. If it runs Windows, is made by Microsoft, or affects our audience, he's on it, along with the rest of the news team. Sean still reviews apps between his news coverage. When he's not covering news or writing about the latest tech, Sean is an avid American football fan. He coaches several teams in Nottingham, England, and even uses Microsoft Teams to share his playbook and study game film. - Read: Sean's posts- Twitter: @Sean Michael UK- Email: sean.endicott@futurenet.comBrendan Griffiths, eCommerce Content Director(Image credit: Brendan Griffiths / Windows Central)Brendan oversees content strategy for our buying guides and deal pages here at Windows Central and also iMore and Android Central. He's a former freelance games journalist, then the first ever Deals Editor for TechRadar and then the Managing Editor of eCommerce & Hardware at GamesRadar before joining us. When he's not rummaging through online sales or trying to appease the Google algorithm you'll find him bingeing boxsets, laughing at fools that don't have Xbox Game Pass and testing every Xbox controller out there, then just using the one standard Series X one. - LinkedIn: Brendan Griffiths (opens in new tab)- Twitter: @bgriffithsCale Hunt, Senior Editor, Laptop Reviews(Image credit: Cale Hunt)Cale joined Windows Central in 2016 to help with reviews, how-tos, and general coverage surrounding laptops, tablets, pre-built PCs, and accessories. Since then, hardware has been piling up behind him, and there's no shortage of exciting new tech to test out and pull apart.Cale enjoys building PCs, gaming, reading, and playing guitar all year round. Camping, music festivals, and travel take over when the middle of Canada isn't unbearably cold. - Read: Cale's posts- Instagram: @cecechaatch- Email: cale.hunt@futurenet.comDaniel Rubino, Executive Editor, Windows & Reviews(Image credit: Daniel Rubino)Daniel Rubino has been writing about Microsoft since 2007, back when the site first launched under the banner of WMEExperts. In 2010, he took over duties as Editor-in-Chief. His responsibilities include managing the staff, directing content, YouTube personality, head-reviewer, editorial, and podcast co-host.Prior to working on Windows Central, Daniel was a polysomnographer at Weill-Cornell Medical College and NY Presbyterian in New York City, a movie theater projectionist for 17 years, Emergency Medical Technician in Connecticut, and was studying for a Ph.D. in linguistics in the neurology of language. He has studied at Sienna College, University of Connecticut, Boston University, and the CUNY Graduate Center with degrees in Political Science and Linguistics.After living in Long Island, New York for 13 years, Daniel currently resides in Massachusetts. - Read: Daniel's posts- Twitter: @daniel_rubino- Instagram: @daniel_rubino- Email: daniel.rubino@futurenet.com- LinkedIn: danielrubino1 (opens in new tab)Daniel Thorp-Lancaster, Editor in Chief(Image credit: Daniel Thorp-Lancaster / Windows Central)Dan joined the Mobile Nations family in 2014 as part of the newsroom team, covering all the things fit to print about Google, Microsoft, and Apple. In 2016, Dan took on the lead news role for Windows Central, directing news coverage on the Microsoft ecosystem. In 2020, Dan became Editor in Chief for Windows Central, overseeing content production, planning, and strategy.Before joining Mobile Nations and Windows Central, Dan cut his writing teeth at Illinois State University. He graduated in 2013 with his bachelor's degree in English Studies and a keen interest in linguistics, rhetoric, and overanalyzing the minutiae of every novel he's ever read.Dan grew up in a small central Illinois town and was hooked on tech at an early age after getting his first taste of computing from an old Windows 3.1 machine. Dan currently resides in eastern Iowa but hopes to get out of the Midwest one of these days. - Read: Dan's posts- Twitter: @Dhorpl- Instagram: @heytsdl- Email: daniel.thorp-lancaster@futurenet.comWindows Central Copy EditorsArthur HurArthur Hur is the copy editor for Windows Central. Before coming to WC, he was an editor for a classic motorcycle magazine and an SEO editor for a digital marketing agency. His earliest gaming memories include being the first kid in his grade to get a Super Nintendo, and playing Wolfenstein 3D and the original DOOM on his first computer, an IBM PS/1 with an astounding 4MB of RAM running Windows 3.1.Off the clock, Arthur plays way too much Overwatch with over 1,000 hours on D.Va. Sadly, he still isn't very good at the game. You can also catch him at various conventions throughout the Midwest and East Coast.Carli Velocci(Image credit: Carli Velocci / Windows Central)Carli Velocci is the Gaming Lead across Windows Central, Android Central, and iMore and is also the chief copy editor. She comes from a video games and culture background, with past work published in Polygon, Vice, Geek, Syfy Wire, TheWrap, and more. When she's not pulling double duty making sure everybody's grammar is perfect and that they're playing all the best new games, she's playing more games (for fun, she promises), reading sci-fi and horror, crocheting, napping, and cuddling up with her two cats. - Read: Carli's posts- Twitter: @Velocciaptor- Instagram: @velocciaptor64- Email: carli.velocci@futurenet.comWindows Central ContributorsZachary Boddy, Contributor, Gaming(Image credit: Zachary Boddy / Windows Central)Zachary started their first professional writing position at Windows Central (with periodic appearances at Android Central and iMore) in 2019 and is proud to be a part of such an excellent team. Zachary primarily writes gaming news, guides, and reviews, but they're not afraid to expand beyond their normal duties. They also hold the title of "Minecraft Expert" for Windows Central and is in charge of all things Minecraft. When Zachary isn't writing for Windows Central, they're listening to music, reading books, and playing video games. Zachary usually prefers to play on Xbox, and you can find them at "DeadWords4". - Read: Zachary's posts- Twitter: @BoddyZacharyAlexander Cope, Contributor, Gaming(Image credit: Alexander Cope / Windows Central)Alexander Cope has written for Windows Central and iMore since 2020. His main focus is writing guides, previews, editorials, and reviews to help you make the right choice when purchasing and playing video games. When Alexander isn't working, he plays video games and watches anime. His favorite franchises include Monster Hunter, Final Fantasy, Mass Effect, and Dragon Quest, Mario, Metroid, Spyro, Psychonauts, and many more. - Read: Alexander's postsMiles Dompier, Contributor & YouTube personality, Gaming(Image credit: Miles Dompier)Miles joined the Windows Central team in 2019. He currently produces videos for the Windows Central Gaming channel in addition to writing reviews, features and editorials. He also hosts Windows Central Gaming's weekly live podcast Xbox Chaturdays. In his free time, Miles enjoys watching horror movies, listening to heavy metal, and playing Souls-likes. He also acts as the team's resident Sea of Thieves and Pokémon superfan. - Read: Miles' posts- Watch: Miles' videos- Twitter: @MilesDompierMauro Huculak, Contributor, Windows Guides(Image credit: Mauro Huculak)Mauro's primary focus is to write comprehensive how-tos to help users get the most out of Windows 10 and its many related technologies. He's been writing for Windows Central since 2015. He has an IT background, and he's a recognized member of the Microsoft MVP community. When Mauro isn't typing a new tutorial, he's always trying to learn something new so he can share it with YOU. - Read: Mauro's posts- Twitter: @pureinfotechBrendan Lowry, Contributor, Gaming & Laptops(Image credit: Brendan Lowry)Brendan joined the Windows Central team in 2017 with a mission to write about all things tech, with a strong focus on Xbox and PC gaming. You'll find him banging out reviews, guides, editorials, and more. Additionally, Brendan proudly serves as Windows Central's resident Halo specialist, covering Xbox's flagship franchise from a multitude of different angles. When he isn't working, Brendan is likely playing one of his favorite games or reading a good book. There's also a good chance you'll find him working towards the completion of his Professional & Digital Writing degree at Oakland University. - Read: Brendan's posts- Twitter: @BrendanLowrySamuel Tolbert, Contributor, Gaming(Image credit: Samuel Tolbert)Samuel started working for Windows Central and its sister sites in July 2019. While he primarily handles news, guides, previews, reviews, and editorials, he also does original reporting. If he's not writing something, he's off playing video games, spending time with his pets, exercising, or reading. While it's probably easier to point out the genres he doesn't enjoy, he has a particular interest in real-time strategy, role-playing games, and big-budget horror titles. - Read: Samuel's posts- Twitter: @SamuelTolbertExecutive teamChris Meineck, commerce directorProduct leadTom Kaminski, director of developmentFor reprints and logo licensing, contact our licensing team at licensing@futurenet.com.Future PLCWindows Central is part of Future PLC, which also includes the Android Central and iMore communities.
