I would rather use Deekin but placement for use with the Blessings prevents it. Caliope buffs the middle column. This current formation affords me 33.1n dps, sitting at lvl 102 comfortably. this gets me to 7.0n instead of 3.19n ) PedroAsani's Strix Formations[] 3.19e10% Gold Find, Mad Wizard z241 without Ultimates, 2.25e70 damage Birdsong Deekin Celeste Hitch Strix Evelyn Barrowin Nayeli Dhadius Evelyn, Compel Duel, Birdsong, Theme of Valor; Hitch, Charismatic; Dhadius, Empowered Empowerment; Celeste, War Domain; Nayeli, Oath of Vengeance; Barrowin, Greater Blessing; Strix, Hide!; Deekin, Epic Tale of Little Kobold Strix has AOE like Minsc, and does ridiculous damage. Delina is in a bad spot, but we need the far back spot for Makos so that only two heroes are adjacent for Dark Blessing. Bruenor Calliope Ashara Makos Jarlaxle Tyril Celeste Artemis Minsc z3ther's ultimate layout for level 75+.[] A few reasons, basically I think that Bruenor has one of the best buffs for the cheapest cost (although I have the Many-notched Axe Gear on him which increases his dmg by 700% so this might play into your setup), and putting him on the same row as Minsc is probably the best level 75+ damage, since he does area attack. Also, sub out Delina for Jamilah. Placement is ready set for the Tier 4 Blessings that will speed up Barrowin (and hopefully add that third hammer) and buff Strix even further. Place Major dps champion between Nayeli, Celeste and Calliope for taking great buffs. All Hail Birdsong - The Goddess of Song;[] Bruenor Calliope Nayeli Tyril Birdsong Arkhan Asharra Celeste Jamilah Same formation as above but we are going to stick Birdsong in the center. Tyril must be placed on endline because of his buff efficiency. Go for Good @200 1500% doubled 3th low Bruenor Buffs this row, with two highest dps-ers, but mainly Strix @940 3600% 4th high Calliope buffs middle thus Strix @960 24300% 4th low Hitch go for Charismatic which is greater than 13 (?) For Strix, then increases it. Oh and sAw, so it does more! DPS. Nayeli for the huge withers to the champions behind her, and even if she has one of the best skills' healing, I find that your DPS buff is better for my casual game. (At LVL 40, Jamilah should swap his position with Minc because of his ability) Asharra Right Behind Minsc and Jamilah. Minsc in the middle. You can help useless samples of the forgotten gift Wiki by expanding it. Birdsong kills an enemy? Jamilah Calliope Tyril Asharra Bruenor Arkhan Celeste Nayeli Minsc Insp3ct's Real Ultimaton Guide to 100+ Lvlng training: [] There is a synergy in this formation that outstrips any other formation here, A` stable, rock solid DPS that does not require the line front that gets mobbed before it does any reasonable DPS. Fill spaces with other buff samples. BRUENOR CALLIOPE ASHARA MAKOS JARLAXLE Artemis Celeste Delina Minsc addition of an Artemis tank at the end will require` more!` damage than can tank because it will be` overwhelmed before you want to reset. Tyril for Moonbeam heals and all DPS. This article is a stub. Double battle song about that good hero. Does more! DPS for me ... @DurabilityA` 2N High Celeste keeps Evelyn and Arkhan Alive and Buffs Strix because it is priced. Double the battle song. ClA? includes 2.95E26 Gear Gold and Champion, which is not maxed at all. Basic training layout [] Nayeli offers the most important fan' taking damage (about 2000% above), so it must be placed on the front line. Note: this page is severely obsolete and most of these formations are no longer! possible. The skills` and each sample's equipment requires careful thought to create the best combination. Artemis will not be` only the main source of DPS in this configuration, will be` even Tanking thanks to outrageous wounds of` Araf` Araf of itnetop` Aip inoizamrof el oloS` alodnadical onnats irtla ilg ittuT` .enoizetorp id inoizacilppa id otnac e assam id the waves of Dungeons & Dragons monsters. I usually pick Wait For It and Friend To Shorties, but Clear Em Out is good for quick runs (gem farm or High Roller dice) With Ishi. Once you have a flute, Artemis will get a larger buff from observing than from being the one buffed by it; and observation stacks multiplicatively with itself allowing buffs to be applied at many times normal strength. Notes[] Trivia[] will be back in a week or month for report after spending earned income. Arkhan, Caliope above Asharra. Birdsong's Song of Battle ability increases the damage of heroes within 2 slots of Birdsong. I use Celeste for damage and heal buffs, Calliope for the buffs in front (although it sucks that she can't Song Of Protection 2 rows to the front). Celeste heals Arkhan and buffs our two major DPS in the bottom middle. The final formation from the first nine slots is as follows. Amnatul's guide to Strix as a hero[] Okay so I prefer Strix over Jamilah, because A) I have good gear for Strix, and B) I just like the way her attack animation looks. ok. Recommended specializations: Tyril - moonbeam, Celeste - war domain, Nayeli - oath of vengeance, Bruenor - rally Other Strategy Placements[] Bruenor Calliope Nayeli Makos Minsc Jarlaxle Delina Celeste Asharra Level up Minsc, he does ridiculous AoE damage. When working toward this configuration move characters around to maximize the outgoing buffs to DPS heroes. @440 6763% Back Tyril least buff decrease of Moonbeam @440 1535% Total 2,98 e14 IF I calculated that right its a 298479888378714.456% increase... @210: 562% 3th middle Birdsong increase dps of everyone in two rows, though it matters only a little with Hitch, for me. Celeste and Nayeli. Tyril in back. 1.17e12% Gold Find (to 2.26e12 with Ishi) z255 without Ultimates, 1.77e71 damage Strix Celeste Barrowin Birdsong Dhadius Evelyn Ishi Hitch Nayeli Bruenor Ishi and Bruenor are the only additions/changes, the rest of them Same thing. Tyril gives the party an increase of 112% dmg. But if you want to beat the boss, Asharra, Makos, Jamilah and Arkhan would be better than Minsc, thanks to ability` of Hitch depending on the Cha point of the character. Nayeli provides the buff for` whole` central column, let go ahead. Before Dark Blessing reverses their position. Birdsong also strikes three consecutive enemies. Get Minsc out of here and say hello to Birdsong. Bruenor A` the Battle Master. Description[] Mastering the position of each Sample to maximize their abilities` special` the key to completing each adventure. Like all the previous ones, I'm talking about the diamond formation, which goes from front to back, and the top sample first, although obviously you can square mirror horizontally. @525 800% Front 2nd Arkhan large tank and polished by two from the row behind him. Asharra hits humans in the middle. In this formation there's` means that Birdsong is feeding all the other heroes. What is it to kill enemies in rows?` slightly harder than to mix. Minsc has one type of area attack. At this point we should be able to afford Tyril and take him to 45 for Wildshape. Everything there?` that Birdsong makes amplifier` ability` Song of Battle. Okay, here it is. Bruenor Calliope Nayeli Tyril Minsc Arkhan Asharra Celeste Jamilah Now, let's talk about it. Birdsong A` close to a hero A`GoodA` (Updating Value Theme)? Position Reasoning name Buff to strix Front Evelyn Less duration but more! buff. I'm experimenting with a long period and will update? with statistics. The training strategy A` one of the game mechanics in Idle Champions of the Forgotten Realms. Changes to improve training are welcome.) Artemis A` awarded by Wintershield Year 3 and A` easily one of the highest DPS heroes! thanks to its 100 Observation level. Bruenor top to provide buff The two major DPS of this column. Birds singing hits an enemy? It could be the best choice of DPS to earn earn Although selecting champions depends on their Gear, in general Asharra, Makos and Hitch are good buff champions. Switch backwards if Arkhan dies (twice) to keep her more valuable fuff over Hitch or Birdsong @550 36100% 2n low Nayeli buffs row behind her, also able to take a punch if Arkhan dies twice @350 13500% 3th high Strix aoe General Discussions > Topic Details.
